1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr Wier on *September 27,2005**.

In claim 1, on line 7, ----when said mechanical interlock is not mated to a dispenser---- has been inserted after "container" . On line 12 "a dispenser " has been changed to --said dispenser---

In claim 22, on line 7, --when said mechanical interlock is not mated to said dispenser--- has been inserted after "container".

2. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 1 and the corresponding method claim 22 recites a container with an opening and a mechanical interlock to mate with a dispenser. There is a cap covering the opening when the mechanical interlock is not mated to the dispenser. The cap has an opening positioned off-centered from a central axis and a disc is rotatably positioned about the central axis of the cap. When the mechanical interlock is mated with the dispenser the disc may be rotated relative to the cap to align the opening on the cap with the opening on the disc to dispenser a product. Claim 12 also recites a distributable container having a receptacle with an opening. There is a mechanical interlock to mate with a dispenser. There is a cap to fit over the opening and to prevent contact with the product by a user when the mechanical interlock is not

mated with the dispenser. When the mechanical interlock is mated to the dispenser, the cap provides a passageway through which the product is dispenser through the dispenser. The claimed invention is not taught nor fairly suggested by any combination of the cited art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
